SUMMARY

Dedicated Full Stack developer completed an intense ten-month course at HackerU Academy, with hands on experience in both front-end and back-end development. Excelled in high-pressure environments during service in the Israeli Air Force by maintaining critical operational equipment in wartime conditions, ensuring functionality under sirens and missile attacks, demonstrated reliability and technical expertise in supporting mission-critical systems. Pursuing a full-time role as a Full Stack Developer with a focus on contributing to impactful and innovative projects

KEY SKILLS

- HTML
- CSS
- Javascript
- React.js
- MySQL
- MongoDB
- Node.js
- RESTful API's

EDUCATION

Full Stack Web Developer Oct 2023- Sep 2024
HackerU Academy, 535 Hours | Graduated with Honors | 2023 - 2024

Demonstrated proficiency in essential Full Stack development tools throughout studies, including HTML, CSS, Javascript, React, MongoDB & Node.js.

PROJECTS

Front-End Card Management App

- Developed a React.js front-end for a card management web app, emphasizing project organization with well-structured folders, modular components, and clear file hierarchies.
[GitHub Link](#) (to see technologies used in this project you may view the README file).

Back-End Card Management API Server

- Built a Node.js back-end server with RESTful APIs, focusing on secure, scalable endpoints for a card management app.
[GitHub Link](#) (to see technologies used in this project you may view the README file).

WORK

EXPERIENCE
