- |            |                 |              |
|------------|-----------------|--------------|
| • HTML     | • CSS           | • Javascript |
| • React.js | • MySQL         | • MongoDB    |
| • Node.js  | • RESTful API's |              |

### EDUCATION

<b>Full Stack Web Developer</b> <b>HackerU Academy, 535 Hours   Graduated with Honors</b>	<b>Oct 2023- Sep 2024</b>
Demonstrated proficiency in essential Full Stack development tools throughout studies, including HTML, CSS, Javascript, React, MongoDB & Node.js.	

### PROJECTS

#### Front-End Card Management App + Back-End Card Management API Server

- Developed a React.js front-end for a card management web app, emphasizing project organization with well-structured folders, modular components, and clear file hierarchies. (to see technologies used in this project you may view the README file).
- Built a Node.js back-end server with RESTful APIs, focusing on secure, scalable endpoints for a card management app. (to see technologies used in this project you may view the README file).

### WORK EXPERIENCE

<b>Supermarket Employee</b>	<b>2023- Present</b>
-----------------------------	----------------------

Supermarket employee with nearly a year of stable tenure, recognized for providing exceptional service through direct verbal interactions with customers, ensuring their satisfaction and fostering loyalty. Commended by management for diligence and reliability, consistently maintaining high standards in service delivery.
